

HOW IT WORKS

Step 1

The bag cassette is sealed at one end with a cable tie. Once the “bag” starts to fill up, you just pull it down and new material is drawn from the cassette to make the bag longer.

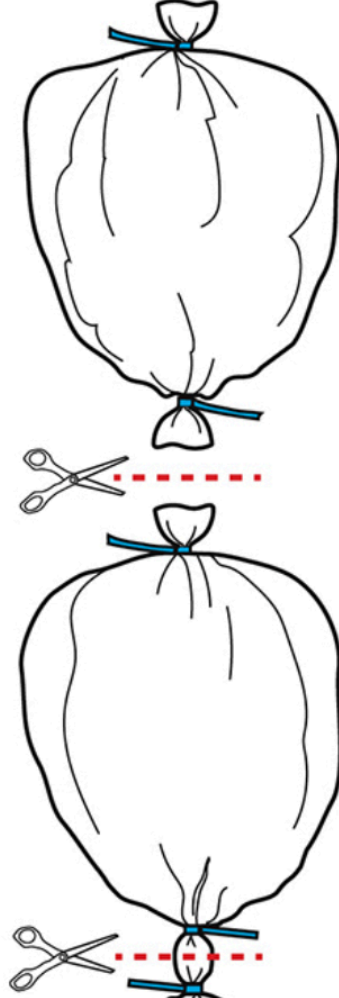

Step 2

To make a new bag, pull the material down and seal it at the top with a cable tie.

Step 3

Add another cable tie above the first one and cut the bag material off between the two cable ties.

The entire process takes less than 30 seconds!
