

CRETE-AWAY+

By  CONCRETE CARE

Concrete Remover

Description: Crete-Away+ is a concentrated, biodegradable concrete remover. Formulated with powerful, organic agents, Crete-Away+ rapidly penetrates, softens and dissolves dried concrete splatter from almost all surfaces without causing damage or corrosion. The use of Crete-Away+ eliminates the requirement for strong, harmful acids, thereby providing a safer option for operatives and supporting the effective maintenance of valuable plant and equipment

- Benefits:**
- Readily biodegradable
 - High foaming product - clings to surfaces to maximise contact time and aid efficient usage
 - Non-fuming
 - Low to no corrosion on most metals, paints and coatings

Application: For use on concrete mixer trucks, plant, equipment, tools, chutes, formwork, pumps, scaffolding etc.

product and leave for 20 minutes to soak. Rinse off with a pressure washer. For older/thicker deposits additional agitation with a stiff brush and a further application of Crete-Away+ will aid the process.

Use as part of a regular maintenance scheme.

Pack Sizes Crete-Away+ is available in 5L, 20L, 210L or 1,000L IBCs.
For best results, use the product neat through a foam sprayer. Apply
